

ENDS AND TRENDS WITH KIM AND KAREN

Karen's Color Trends: We're right in the thick of fall with winter upon us soon enough. It should come as no surprise that the richer, deeper colors are part of this season's palette for women's fashions. If you're curious about this fall/winter's color trends, here you go, courtesy of Pantone!

Reds: Try the color of Sangria, an exotic red that evokes a sense of glamor. It's enhanced by a sophisticated shade of Aurora Red that adds verve and spark.

Purples: Mauve Mist is a romantic and elegant shade of purple. It stimulates a sense of femininity and empowerment. On the other end of the spectrum, Radiant Orchid is a gorgeous and adaptable shade.

Green: Cypress is a majestic and powerful green. This shade of green has a towering presence and is a fashion stunner.

Blues: Bright Cobalt is not your traditional cobalt blue and adds some zing to your wardrobe. Royal Blue is a versatile and dignified shade of blue, more complex and exciting than the average navy.

Neutral: Try Aluminum for a futuristic stainless steel shade. Really a fashion staple and wardrobe must-have shade.

Brown: For that warm, seasonal feel, try the color Cognac for a classy and cultured brown hue.

Pop of Color: Add that unexpected ray of sunlight by using Misted Yellow. It's that spark of positivity that also alludes to the upcoming spring in the months ahead.

Next time, I'll share the men's fashion color trends!
